The provisional agenda for the day

9.00-9.30am

Welcome and refreshments for the delegates at the School of Veterinary Medicine and Science, University of Nottingham – **Mark Dunning**

9.30-10.30am

Small group discussion sessions for delegates to discuss the perceived cancer problems in their breed, their own concerns and experiences within the breed and problems they have encountered in their own pets – **Staff from the Veterinary School will facilitate these discussions.**

10.30-11.00am

Tea, coffee and refreshments

11.00-11.30am

Owner presentations of experiences with particular Cancers within their breed - past and present

11.30-1.00pm

Short – 15-minute presentations with 5-minute questions, from clinicians and researchers at the School of Veterinary Medicine and Science to include:

- Overview of the current diseases (particularly cancers) reported in Spaniels, what do we actually know about these diseases and can this help us treat them? – **Mark Dunning**
- The importance of genetics in investigating breed related disease and how this can help long-term health
- Introduction to cancer in dogs, our current understanding of the disease process and how research can help to treat this condition
- Clinical and research capabilities at the School of Veterinary Medicine and Science and relevant collaborators. Why is Nottingham a suitable base to coordinate this sort of research?

1.00-2.30pm

Lunch and informal discussions

Tours of the School of Veterinary Medicine and Science

2.30-2.50pm

Overview of the importance of owner and breeder driven research projects to further the health of dogs – panel discussion with attending clinicians, researchers and the audience

2.50-4.00pm

Discussion to prioritise the concerns and particular conditions affecting the breeds identified during the mornings small group session

Wrap-up session, refinement and selection of projects to move forward into development

4.00-4.30pm

Tea, coffee and refreshments, any further discussion and close of meeting

There will be a raffle during the day.

From Nottingham, Loughborough and East Midlands Airport
Bus services run from Nottingham, Loughborough and East Midlands Airport to Sutton Bonington. See bus services for further information.

From M1 Motorway

The M1 motorway has an access point (Junction 24) at Kegworth, 2 miles from the Campus. Persons travelling by road from the North West and South otherwise than by the motorway are advised to make for the A6, turning off at either Kegworth or Hathern for Sutton Bonington.

From the South

Go to Leicester via the A6 to Loughborough (12 miles) then from Loughborough via the A6 to Hathern (3 miles). Leaving Hathern via the A6 turn right along the A6006. Pass through Zouch and take the first turning on the left for Sutton Bonington. Pass through Sutton Bonington, follow the main road up the hill and bear left at top - Sutton Bonington Campus is on the right hand side.

From the North

Nottingham - cross Clifton Bridge along the Ring Road and get into the correct lane for Birmingham and M1 marked by overhead signs. Follow the A453 via Clifton. Take first exit to roundabout continue along B679 turning right in Gotham for Kingston-on-Soar (marked "Kingston"). Straight over the mini-roundabout. In Kingston-on-Soar fork left for Sutton Bonington and follow the road to the crossroads. Straight across. The Sutton Bonington campus is on the left hand side.

From the North West

From Derby, follow the A6 to the A50. Take the A50 to the roundabout at Junction 24 of the M1. Take the 3rd exit to Kegworth. On the outskirts of Kegworth take the first turning on the left (signposted to Sutton Bonington). Follow this road through Kegworth and turn right immediately after the Anchor Inn (sign-posted for the University of Nottingham Sutton Bonington Campus). Then turn right at the next cross-roads. Sutton Bonington Campus is on the left.

Those travelling by road from the north-west and south by other routes should follow the sign-posted routes from the A6 at Kegworth or Hathern to Sutton Bonington Campus.
